WHAT ARE THE MINIMUM DEVICE SPECIFICATIONS TO FORTNITE ON ANDROID THROUGH THE CLOUD?

For the minimum device specifications to play Fortnite on Android through the cloud, please see [Xbox's support website](#), the [GeForce NOW system requirements page](#), or the [Amazon Luna Getting Started page](#) (depending on whether you're playing via Xbox Cloud Gaming, NVIDIA GeForce NOW, or Amazon Luna).

Visit our [Xbox Cloud Gaming for Fortnite](#) page, [GeForce NOW for Fortnite](#) page, or [Amazon Luna for Fortnite](#) page to learn more about these services.

CAN I PLAY FORTNITE ON ANDROID WITH A CONTROLLER? WHAT ARE THE SUPPORTED CONTROLLERS?

Yes, you can play Fortnite on Android with a controller! The supported controllers depend on whether you're playing Fortnite natively, through Xbox Cloud Gaming, or through GeForce NOW.

For playing Fortnite natively on Android, the following Bluetooth controllers are supported:

- Steelseries Stratus XL
- Gamevice
- Sony DualShock 4 Wireless Controller (Android OS 10 or newer)
- Xbox Wireless Controller
- Razer Raiju Mobile
- Razer Junglecat
- Moto Gamepad

For playing Fortnite on Android through Xbox Cloud Gaming, the supported controllers are listed on [Xbox's support website](#).

For playing Fortnite on Android through GeForce NOW, the supported controllers are listed on the [GeForce NOW system requirements page](#).

For playing Fortnite on Android through Amazon Luna, the supported controllers are listed at [Amazon's Help & Customer Service](#).

CAN I PLAY FORTNITE ON ANDROID WITH KEYBOARD + MOUSE?

Keyboard + mouse is not supported in Fortnite on mobile devices (including Android phones and tablets), whether playing natively, through Xbox Cloud Gaming, through GeForce NOW, or through Amazon Luna.

IS VOICE CHAT AVAILABLE IN FORTNITE ON ANDROID?

Yes, voice chat is available in Fortnite on Android devices.

Keyboard + mouse is not supported in Fortnite on mobile devices (including Android phones and tablets), whether playing natively, through Xbox Cloud Gaming, through GeForce NOW, or through Amazon Luna.

IS VOICE CHAT AVAILABLE IN FORTNITE ON ANDROID?

Yes, voice chat is available in Fortnite on Android devices.

Please note that you cannot use Bluetooth headsets for voice chat in Fortnite on mobile (including Android). However, Bluetooth headsets can still be used for audio output. If your device allows it, you can use the device's microphone for voice chat while using Bluetooth headsets for audio output.

DOES FORTNITE ON ANDROID HAVE CROSS-PLAY?

Yes, if you've launched Fortnite from the Epic Games App or are playing Fortnite through cloud gaming, you'll be playing with players across all platforms. This also means you can party up with your friends on other platforms.

WILL I BE PLAYING THE CURRENT BATTLE ROYALE SEASON IF I PLAY FORTNITE ON ANDROID?

Yes, if you've launched Fortnite from the Epic Games App or are playing Fortnite through cloud gaming, you'll be playing the current Season.
